CyberTec Solutions Center

The CyberTec Solutions Center supplies advanced cyber solutions to the warfighter and the cybersecurity community. Because cybersecurity is of the utmost importance to us, we have made internal investments in our cybersecurity team. We provide a capability that supports employee retention, training, testing, and research and development in addition to recruitment of the best cyber talent.

Our motivated and skilled cyber team are able to use lab resources in order to conduct research on the latest threats, test on the latest tools, execute Red Team/Blue Team exercises, participate in capture the flag tournaments, and provide monthly lunch-and-learns for the community. The controlled, separated lab environment provides our cyber team with access to resources which are not available or allowed on corporate or government networks.

Our premier lab offerings deliver vital cybersecurity solutions to our customers and the cybersecurity community. The CyberTec Solutions Center rapidly adapts to the evolving cybersecurity landscape while providing a hands-on, innovative environment for mastering the cyber domain in order to advance warfighter superiority.

PeopleTec
